

Fire Warden & Emergency Evacuation (Practical) Training

OVERVIEW

This course is aimed at all individuals, employees and employers working in all economic sectors. Successful participants will be able to better understand and ensure that all workers know what to do in case of a Fire, Earthquake, Hurricane, and their effective role in the capacity of a warden in emergency response. Many of the hazards to workers both during and following most Emergencies are predictable and may be reduced through hazard identification, planning, and mitigation. Addresses NFPA 10 Standards & OSHA29 CFR 1910.38 EAP.

Recommended participants:

- ✓ Persons in organizations who are exposed to hazards and risks including General Workers
- ✓ Safety Committee Members
- ✓ Managers
- ✓ Safety Personnel
- ✓ Supervisors
- ✓ Anyone interested in becoming a Fire Warden.

COURSE OBJECTIVES

Upon successful completion of this intense training, participants will be able to understand:

- Classification of Emergencies
- What is a fire – fire triangle and fire tetrahedron.
- Classifications of fires
- How a fire can spread
- Emergency Response planning and execution
- Self-rescue techniques
- Role and responsibilities of an Evacuation warden
- Earthquake Response
- Earthquake Preparedness
- Hurricane Preparedness
- Emergency Equipment Checklist
- Communication in an Emergency
- OSH Act legal responsibilities.

FACILITATOR'S BACKGROUND

Mr. Kenny Mohammed

Kenny Mohammed has over twenty-five (25) years' experience in the upstream & downstream industries. His primary focus is on the development of safety behaviours within the frontline & working class for those who are exposed to safety critical tasks.

Mr. Mohammed has accomplished his Master's Membership in Executive Leadership, SVQ Assessor / Verifier qualifications in competency management and he also brings a high degree of operational experience to the learning process.

With regards to his safety training qualifications, Mr. Mohammed is a certified Train-the -Trainer in numerous disciplines. Mr. Mohammed's qualifications prove integral in supplying and developing a range of training and competency options tailored to meet client and national standards.
